## WASTE WATER – WASTE OR TREASURE?

**BERANKOVA, M.**

TGM Water Research Institute, p. r. i.

**Keywords:** DESAR – NoMix Toilet– alternative water systems

At the time of changing climatic conditions and reducing the quantity of raw material it is necessary to start saving water and raw materials. To achieve this target it is good to separate wastewater at the source and using of no-mix toilets. Czech legislation is not yet adapted to this alternative treatment of waste water.
