

IMPACT OF DROUGHT AND WATER SCARCITY ON WATER USE ASSESSMENT

VYSKOC, P.; PRCHALOVA, H.; DLABAL, J.

TGM Water Research Institute, p. r. i.

Keywords: drought – water scarcity – water resources – water abstraction – water balance

Exist tools for water balance, time series of water abstractions and their season variability, difference between permitted and real abstractions and impact of drought in 2015 were analysed and assessed in subtask Impact of Drought on Water Use Assessment. Areas and reservoirs at risk of water use due to the water scarcity were identified.
